

To reach your weight loss goal, you'll have to adjust your eating habits so you not only lose that unwanted body fat, but you keep it off for good. To help you do this, we've included sample meals which provide balanced meals and convenient options. Use these to get ideas of what and how much to eat, but feel free to modify them to suit your preferences and lifestyle. **The target calories are listed for each meal so that any food or meal can be substituted as long as the calories are closely matched.** Remember, *burning more calories than you eat is the only proven way to lose weight.*

Studies show that consuming meal replacement shakes is an effective way to maximize weight loss while eating enough fiber (25 grams per day for women, 38 for men) from whole grains, fruits and vegetables will help you stay satisfied and energized. You'll see these items in your meal options. Staying hydrated is also important for weight control so be sure to drink plenty of water and calorie-free beverages. Plain coffee, unsweetened tea and any calorie-free beverage contribute to your daily fluid needs.

Finally, people who track what they eat lose more weight and are better at keeping it off, so be sure to take advantage of the online food log in your dotFIT program.

Your transformed body is waiting for you!
